

Piero Lissoni

This series presents international architects and designer in monographies. Piero Lissoni is one of Italy's most successful Designers, leading a company in Milan with over 50 Architects and Designers. So far he is known more for his furniture design rather than his architecture. He is often thought of as a minimalist, but in reality, Piero Lissoni's aim is to create a complementary cohabitation of different styles. His highest goal is simplicity: as way of thinking, as an attitude, simplicity holds a great inner complexity. For Piero Lissoni it is always imperative to scale down and get to the bottom of things. Among his customers are renown companies such as Boffi and Matteograssi. The book introduces to a selection of his outstanding projects all around the world.
